

Replies to questions from major parties for NSW State election

RYDE ELECTORATE	Victor Dominello – Lib Minister for Finance	Jerome Laxale – Labor	Lindsay Peters - Greens
Should NSW move rapidly to 100% renewable energy?	Did not respond	Yes	Yes
What target should NSW have for renewable energy?	Did not respond	50% by 2030, 100% by 2050. Labor to support installation of PV in schools, businesses and homes	100% by 2030
Should NSW still be building new fossil fueled power plants?	Did not respond	No	Absolutely not
Should NSW have incentives for uptake of electric vehicles? Y/N	Did not respond	Yes	Yes. 10% new cars being zero emission by 2022, 100% by 2030
Will your party approve new or expanded coal or CSG mines?	Did not respond	No	No. Mining, burning or exporting of coal or CSG to be prohibited by 2030

LANE COVE ELECTORATE	Anthony Roberts – Lib Minister for Planning	Andrew Zbik - Labor	Pierre Mass - Greens
Should NSW move rapidly to 100% renewable energy?	Said should do orderly transition but didn't say yes or no	See next answer	Yes
What target should NSW have for renewable energy?	No target set for renewables.	50% by 2030, 100% maybe by 2050; all govt agencies 100% by 2025	100% renewables by 2030
Should NSW still be building new fossil fueled power plants?	Didn't say. Said NSW govt doesn't build them.	Electricity from new coal fired power stations expensive	No
Should NSW have incentives for uptake of electric vehicles? Y/N	10% govt vehicles by 2020 to be electric or hybrid	Yes. 25% govt vehicles by 2025 to be electric	Yes, if power is from renewable energy sources
Will your party approve new or expanded coal or CSG mines?	Claims rigorous process in accessing new projects. Didn't answer question.	Coal still important to NSW economy.	Absolutely not
